

# EKIUM

Ekium is the leader in France in local engineering. Ekium supports its clients in their industrial strategy, the design of their equipment and buildings, construction management, production management and installations maintenance.

  
**1 600**  
Collaborators

  
**170 M€**  
Of turnover

## SECTORS OF ACTIVITY

  
Aeronautics

  
Agribusiness

  
Automotive

  
Chemicals  
Petrochemicals

  
Energies

  
Water  
Environment

  
Manufacturing  
Industry

  
Naval

  
Nuclear

  
Infrastructure  
Building

  
Paper

  
Oil  
Gas

  
Pharmacy  
Biotechnology  
Fine chemicals  
Cosmetology

  
Steel industry  
Metallurgy

  
Glass, Cement  
Materials

## COMPANY KNOW-HOW

Industrial strategy	Preparation
Studies	Construction
Conception	Testing and commissioning
Purchasing	Exploitation & Maintenance

## OUR CAREER HISTORY : A SUCCESS STORY

**2022** : Integration of the engineering companies CPQ Ingenieros (Barcelona) and SOFSID (Aix-en-Provence), MAXCONTROL becomes Ekium Brasil, opening of an entity in the United Kingdom and Romania.

**2021** : Creation of an expertise centre for processes, chemistry, oil & gas.

**2018** : Integration of the companies Air Consult Engineering (Belgium), Integration ATEIM, DI Ingénierie, Chleq Froté.

**2017** : SNEF becomes the reference shareholder.

**1990** : Creation of a design office specialized in automation in Lyon.

## COMMITMENTS & AWARDS

Creation of two internal networks to promote gender equality (EKILIBRE) and engineering professions in schools (EKIPOTENTIEL)

Winner of the National Engineering Competition Syntec-Ingénierie

Signatory of the Climate and Gender Engineering Charters.
