

EKIUM

A key player in the energy transition and decarbonisation, Ekium is a multi-skilled engineering company operating in the industrial, naval and energy sectors. We support our customers in their strategy, transformation, design and construction of their industrial buildings and equipment, as well as in the management of their production and facilities.

A SUCCESS STORY

In 1990, 4 friends set out in the instrumentation, electricity and automation business. Today 2,500 employees generate a turnover of €300m. Since 2017, our shareholder is the SNEF Group, a multi-technical French company specialising in the marine, industry, energy, infrastructure and tertiary sectors. In 2023, Sofresid Engineering, DIVA Ingénierie and TECHNO PRO became part of Ekium Group, which will expand its expertise in the Marine, Offshore Wind and Upstream Oil & Gas sectors.

All projects, no matter how crazy, can be brought to life by our teams.

Let yourself be surprised and explore Ekium from the angle that interests you!

KNOW-HOW

Ekium offers solutions throughout the project life cycle

Aerospace Space

Food industry

Automotive, Batteries Manufacturer

Biofuels, E-fuel, Petrochemicals, Refining, Plastics recycling

Wood and paper, Biomass

Chemistry, Gas, Hydrogen, Co of CO₂

Defence & Security

Energy : Hydroelectricity, wind power, photovoltaics

Infrastructure & Health

Marine Offshore

Microelectronics

Mining, Steel, Aluminium, Building Materials, Cement, Glass

Nuclear

Pharmaceuticals, Fine chemicals, Agro-industry, Biotechnology

CERTIFICATIONS & DISTINCTIONS

Watch the videos all the projects for which for which Ekium has received an award.

Certifications apply to the sites and activities listed on the certificates in force.

PRESENCE

Ekium is present in 44 towns and cities in France and abroad!

Australia

Belgium

Brazil

United Arab Emirates

Spain

France

Italy

Luxembourg

Mauritius

Uganda

Romania

United Kingdom

Switzerland
